

INSTRUCTIONS

Tartan Weaving:

You'll need:

- 1 precut piece of paper (included)
- Paper strips (included)

Make your own tartan to represent your clan! Weave the paper strips provided through your precut piece of paper by picking up every other loose end. When you start the next row, make sure you do the opposite pattern. For example, if you pick up the first loose end on the first row, start by picking up the second loose end for your second row. You can put the strips together in whatever order you'd like. To try a different design, simply slide the strips back out. Once you've made a pattern you like, you can secure a strip of tape across the bottom to lock the pieces in.

Learn Gaelic:

You'll need:

- Gaelic flashcards (included)
- Coloring sheet (included)

Learn how to speak the same language that the Highland Scots of North Carolina spoke! Use your flashcards to practice basic words, including colors. With the help of a parent, scan the QR code below for a pronunciation guide so you learn how to say the words correctly. When you think you know them well, try coloring in the crayons with the correct colors – peek at your flashcards if you get stuck!
