

# Instructions

## **Ball and Cup:**

To make a ball and cup toy you'll need:

- 1 pre-glued cup and stick (included)
- 1 sheet of foil (included)
- 1 string (included)
- Tape

First, spread your sheet of foil out and lay your piece of string in the center of the foil. Carefully scrunch the foil around the tail of the string. Once it's secured, scrunch your foil into as tight of a ball as you can manage. Tape the opposite end of your string to the outside of the cup and you'll have your very own ball and cup toy!
